Benefits Summary

All Services are subject to the provisions described in the Certificate of Coverage. Claims must be received within 180 days of the date of service. Altus Dental covers the following services rendered by or under the supervision of a dentist in a dental office. If applicable, services subject to a deductible and/or coinsurance/copayment are indicated. Services are covered up to the allowance if the dentist is participating. If the dentist is non-participating, we will pay the coverage level for that type of service, based on the reasonable and customary charge for the dentist's area, less any deductible(s) or coinsurance/copays that are your responsibility. You are responsible for any difference between our payment and the non-participating dentist's charge. The information listed here is not a guarantee of payment. To be covered, services must be in accordance with Altus Dental's utilization review guidelines. All services must be completed to qualify for benefits (e.g. permanent crowns cemented, bridge or denture inserted).
